Statement of how selected building material or combination of materials will be dominant:			
	Statement of how selected	building material or combination of mater	ials will be dominant:

(2) BUILDING COLORS – If selected, the dominant building color or pattern of colors shall be specified below. The means by which a color or pattern of color is dominant and how that building color(s) is (are) to be used on the building façade must be clearly stated.
A maximum of three (3) building colors may be designated as a primary unifying element. Colored renderings are encouraged, but are not a substitute for specifications. Provide actual manufacturers paint samples to identify colors.
Description of dominant color or pattern of colors:
Statement of how selected color or pattern of colors will be dominant:
(3) ARCHITECTURAL FEATURES – If selected, the dominant architectural feature or combination of features shall be specified below. The means by which an architectural feature or combination of features dominant must be clearly stated. Architectural features include, but are not limited to: Roof treatment, including style, material, and color of roof; façade treatments, including fenestration pattern and ornamentation; and building form, including overhangs, canopies, protected exterior walkways and entrance treatments.
Description of dominant architectural features or combination of features:
Statement of how selected architectural features or combination of features will be dominant:

Section D. SECONDARY UNIFYING ELEMENTS (OPTIONAL) In addition to the primary unifying elements noted above, secondary unifying elements may be specified. If it is specified, these secondary elements will become part of the guidelines and must be present in each building of the development. Secondary unifying elements may include landscaping, architectural compatibility between a permitted ground sign and buildings, setbacks, additional building colors, height, lighting or any other element that may be relevant to a specific development. Attach additional pages if needed: SECONDARY UNIFYING ELEMENT 1: Describe the secondary unifying element in sufficient detail to allow these guidelines to be administered through the plan review and building permit process: SECONDARY UNIFYING ELEMENT 2: Describe the secondary unifying element in sufficient detail to allow these guidelines to be administered through the plan review and building permit process: SECONDARY UNIFYING ELEMENT 3: Describe the secondary unifying element in sufficient detail to allow these guidelines to be administered through the plan review and building permit process:

Section E. ADDITIONAL NOTES:		
(1) REVISIONS TO APPROVED UNITY OF I	DEVELOPMENT GUIDELINES	
ny subsequent revisions or amendments to approved Unity of Development guidelines must be signed by the property owner. Vithin shopping centers or retail areas, where properties may be separately owned, the owner that controls the primary uses and ructures of the unified development shall sign all guidelines and amendments thereto.		
(2) NOTATION ON RECORDED PLATS		
A notation shall be placed on all plats for recording within a unified development stating that all future development is subject to the guidelines as contained in the approved unity of development plan.		
(3) ARCHITECTURAL COMPATIBILITY BET	TWEEN GROUND SIGN AND BUILDING	
	page 3 of this application), architectural compatibility between a ground sign and the ase and supporting structure of the ground sign shall not be subject to the three sign (b).	
Section F. APPROVAL INFORMATION:		
	reviewed and meets the requirement of Section 10-2090 Of the Raleigh City Code.
